Small Format Stores Layouts
Note: These Small Format Planograms have been designed to maximise the return on floor space while ensuring they are a Shopper Focused range & offer. The intention is to maximise the limited space available in store to ensure we offer the best possible range to meet the Shopper's mission whilst also ensuring we have a strong component of Promotions and we maximise the Return on Shelf.

As these Planograms are combined there may be a requirement for a minor relay in your store, so you are able to align to the correct adjacencies. If this is Manager or State Area Manager will change could be required. The Mel right Footage to Sales Allocations.
